National Coaching Certification Program

# ADVANCED COACHING DIPLOMA

The Advanced Coaching Diploma (ACD) is the most extensive multi-sport training program offered by the National Coaching Certification Program (NCCP) in Canada. ACD coaches are recognized as being among the most qualified coaches and leaders of athletes and sport programs provincially, nationally, and internationally.

The Diploma consists of four core themes; Coaching Leadership, Coaching Effectiveness, Performance Planning, and Training and Competition Readiness. Each theme requires coaches to complete a series of modules comprised of seminars, workshops or labs. Coaches will be assessed in each module based on their ability to demonstrate competency while coaching their athletes. Coaches enrolled in the diploma program will work with a designated master and/or mentor coach who will support them in their completion of program requirements. The diploma program requires a mid-point and final assessment by a panel of content specialists. The Diploma is one step towards the certification in the Competition – Development Advanced Gradation context. To complete his/her certification, the coach must contact his/her National Sport Organization to apply for the sport-specific evaluation.

Please contact the ACD Director in your province or region for more information.
